

# Sample Protocol

Christopher Olsen

November 22, 2024

## 1. Overview

The purpose of this protocol is to showcase this protocol template.

### Materials Required

- Here you can put needed protocol materials
- Micropipettes (P20, P200, P1000)
- 96 well plates

### Safety Considerations

Wear appropriate PPE including gloves, lab coat, and safety glasses. Prepare and add sample buffer with beta-mercaptoethanol under a fume hood.

## 2. Procedure

### Day 0

- Here, you can include day-by-day instructions. Or figures as seen below.

Figure 1: caption here.
